

MASSACHUSETTS NOTICE FORM

Notice of Policies and Practices to Protect the Privacy of Your Health Information

THIS NOTICE DESCRIBES HOW PSYCHOLOGICAL AND MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

I. Uses and Disclosures for Treatment, Payment, and Health Care Operations

We may *use* or *disclose* your *protected health information (PHI)*, for *treatment, payment, and health care operations* purposes with your *consent*. To help clarify these terms, here are some definitions:

- "*PHI*" refers to information in your health record that could identify you.
- "*Treatment, Payment and Health Care Operations*"
 - *Treatment* is when we provide, coordinate or manage your health care and other services related to your health care. An example of treatment would be when we consult with another health care provider, such as your family physician or another Mental Health Provider.
 - *Payment* is when we obtain reimbursement for your healthcare. Examples of payment are when we disclose your PHI to your health insurer to obtain reimbursement for your health care or to determine eligibility or coverage.
 - *Health Care Operations* are activities that relate to the performance and operation of our practice. Examples of health care operations are quality assessment and improvement activities, business-related matters, such as audits and administrative services, and case management and care coordination.
- "*Use*" applies only to activities within our practice group, such as sharing, employing, applying, utilizing, examining, and analyzing information that identifies you.
- "*Disclosure*" applies to activities outside of our practice group, such as releasing, transferring, or providing access to information about you to other parties.

II. Uses and Disclosures Requiring Authorization

We may use or disclose PHI for purposes outside of treatment, payment, and health care operations when your appropriate authorization is obtained. An "*authorization*" is written permission above and beyond the general consent that permits only specific disclosures. In those instances when we are asked for information for purposes outside of treatment, payment and health care operations, I will obtain an authorization from you before releasing this information. We will also need to obtain an authorization before releasing your psychotherapy notes. "*Psychotherapy notes*" are notes we may have made about our conversation during a private, group, joint, or family counseling session, which we have kept separate from the rest of your record. These notes are given a greater degree of protection than PHI.

You may revoke all such authorizations (of PHI or psychotherapy notes) at any time, provided each revocation is in writing. You may not revoke an authorization to the extent that (1) we have relied on that authorization; or (2) if the authorization was obtained as a condition of obtaining insurance coverage, and the law provides the insurer the right to contest the claim under the policy.

We will also obtain an authorization from you before using or disclosing PHI in a way that is not described in this Notice.

III. Uses and Disclosures with Neither Consent nor Authorization

We may use or disclose PHI without your consent or authorization in the following circumstances:

- **Child Abuse:** If in our professional capacity, have reasonable cause to believe that a minor child is suffering physical or emotional injury resulting from abuse inflicted upon him or her which causes harm or substantial risk of harm to the child's health or welfare (including sexual abuse), or from neglect, including malnutrition, we must immediately report such condition to the Massachusetts Department of Social Services.
- **Adult and Domestic Abuse:** If we have reasonable cause to believe that an elderly person (age 60 or older) is suffering from or has died as a result of abuse, we must immediately make a report to the Massachusetts Department of Elder Affairs.
- **Health Oversight:** The Board of Registration of Psychologists and the Board of Registration of Medicine (or other body governing the licensure of our mental health provider) has the power, when necessary, to subpoena relevant records should your clinician be the focus of an inquiry.
- **Judicial or Administrative Proceedings:** If you are involved in a court proceeding and a request is made for information about your diagnosis and treatment and the records thereof, such information is privileged under state law

and we will not release information without written authorization from you or your legally-appointed representative, or a court order. The privilege does not apply when you are being evaluated for a third party or where the evaluation is court-ordered. You will be informed in advance if this is the case.

- **Serious Threat to Health or Safety:** If you communicate to us an explicit threat to kill or inflict serious bodily injury upon an identified person and you have the apparent intent and ability to carry out the threat, we must take reasonable precautions. Reasonable precautions may include warning the potential victim, notifying law enforcement, or arranging for your hospitalization. We must also do so if I know you have a history of physical violence and we believe there is a clear and present danger that you will attempt to kill or inflict bodily injury upon an identified person. Furthermore, if you present a clear and present danger to yourself and refuse to accept further appropriate treatment, and we have a reasonable basis to believe that you can be committed to a hospital, we must seek said commitment and may contact members of your family or other individuals if it would assist in protecting you.
- **Worker's Compensation:** If you file a workers' compensation claim, your records relevant to that claim will not be confidential to entities such as your employer, the insurer and the Division of Worker's Compensation.
- When the use and disclosure without your consent or authorization is allowed under other sections of Section 164.512 of the Privacy Rule and the state's confidentiality law. This includes certain narrowly-defined disclosures to law enforcement agencies, to a health oversight agency (such as HHS or a state department of health), to a coroner or medical examiner, for public health purposes relating to disease or FDA-regulated products, or for specialized government functions such as fitness for military duties, eligibility for VA benefits, and national security and intelligence.
