

# MANAGING CHRONIC PAIN: SKILLS AND STRATEGIES

**Does pain lead you to feel anxious or depressed?**

**Does your pain hold you back from your life?**

*LEARN TO BETTER MANAGE YOUR CHRONIC PAIN  
PAIN AND RETURN TO LIVING YOUR LIFE!*

This evidence-based 8 session group offers specific skills and strategies to alter your negative emotional and physical reactions to pain, and improve your day to day living.

Skills learned in group aim to **change perceptions of and beliefs about pain, reduce feelings of depression and anxiety caused by chronic pain, and reduce physical tension that aggravates chronic pain through cognitive, behavioral, and mindfulness strategies.**

**Where:** South Shore Medical Center, 148 Longwater Dr., Norwell, MA
