MANAGING YOUR ALCOHOL USE: Skills and strategies to cut down or quit

This 10 session group will be informed by an evidence-based protocol which offers specific skills and strategies derived from Relapse Prevention Therapy, Acceptance and Commitment Therapy, and Motivational Interviewing.

- Set appropriate and relevant goals for your alcohol use (reduction or abstinence).
- Learn about psychological rigidity which can lead to more suffering and less engagement in life as well as psychological flexibility, which may lead to a fully lived life.
- Analyze high-risk situations, review cognitive restructuring and relapse management approaches, among other useful approaches.
- The group will focus on partnership, acceptance, compassion and evocation.

**When:** Thursday 5:30-6:30  
**Where:** South Shore Medical Center, 143 Longwater Drive, Norwell MA Patient Education Room
